#### Map and terrain

Pamhule skov 1:10:000 og 1:7500 newly drawn by GT Maps and OK HTF i 2024

Weak to heavily hilly mixed deciduous and coniferous forest. The forest is very varied and there are many dense areas. The ligibility is also varied and with a well developed track network. Part of the forest is untouched forest, which means many fallen trees and tree roots. The largest and difficult to pass fallen trees are included on the map as green lines or small desities. There are many mountain bike tracks in the forest and there may be MTB bikes/riders in the forest. It is generally wet in the forest and in some areas, there is some high undergrowth.

Exsmample of the map will be in startbox 2 and 3. And if there is some changes on the maps after printning is will be showed there. The map will not be at the event area.

There will be an old map over the forest, and it can be found on the events homepage. The old map may not be brought along to the event area neither as printed nor digital.
